

NOMAD STOOL

Design by ARS

At the office or at home, the Nomad chair is a catalyst for joy. The shape of the stool was born from the reuse of an already existing semi-finished element.

The "U" shaped piece was discovered by our ARS team in the Transylvanian factory where AȘKIA Furniture produces its elements from curved plywood.

Researching what could be done with this shape without changing the piece too much, ARS amusingly found a resemblance to a riding saddle. Hence the name NOMAD. A playful idea, a saddle-shaped chair, on which to sit comfortably and to explore the office space to cheer up your work day.

GENERAL MAINTENANCE

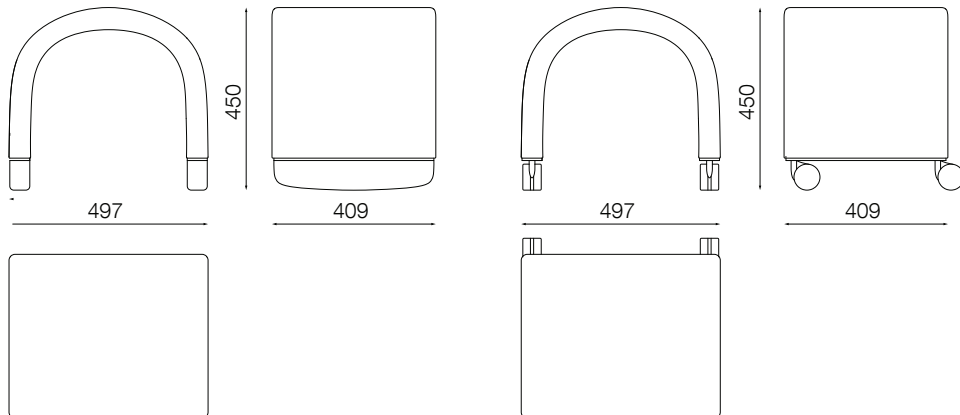

For daily maintenance of Nomad Stool, use a damp cloth to clean the entire surface of the stool. Dust with care.

Use a microfiber cloth when dry dusting. Use a light touch and do not rub the cloth forcibly over the surface. Always clean spills and water off with a clean dry cloth or paper towel.

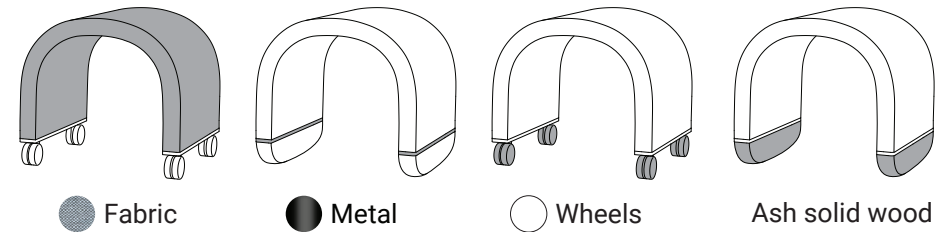

Avoid the use of scourers or bleaches. Use a humidifier. Use a hygrometer. Always move it with care.

SHIPPING

Assembled.
